Quayle Action

1. This application is in condition for allowance except for the following formal matters.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

Drawings

2. The drawings are objected to because in figures 54A and 54B the arrow illustrating the direction of dismounting for the developing means 51 is missing, where such an arrow should be inserted in the figures similar to the arrows corresponding with units 50, 52, 53 and 54.

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet"

Art Unit: 2852

pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Specification

3. The title of the invention is not descriptive. A new title is required that is clearly indicative of the invention to which the claims are directed.

Claim Objections

4. Claims 205, 206 and 228 are objected to because of the following informalities.

Appropriate correction is required.

In claim 205, line 8, “the preselected order” should be changed to “a preselected order”.

In claim 206, line 8, “the preselected order” should be changed to “a preselected order”.

In claim 228, lines 5-7 do not make sense, where “a charging device configured to charge the image carrier” on line 7 should be changed to “a cleaning device configured to clean the image carrier”.

Allowable Subject Matter

5. Claims 201-234 are allowed.

Prior Art

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Saitoh et al. (US 6,249,661) and Kawai et al. (US 6,463,232) disclose a handle disposed on an image carrier.
